

## **TELMAR NETWORK TECHNOLOGY SELECTED AS MULTI-VENDOR SPARE PARTS MANAGEMENT AND REPAIR PROVIDER BY TELEFONICA O2 IRELAND**

*Telmar Network Technology to provide managed services to Telefónica O<sub>2</sub> Ireland including multi-vendor spare parts management, repair, warehousing, and vendor warranty management*

**Eindhoven, The Netherlands, February 24, 2010** - Telmar Network Technology announced it has been awarded a multi-vendor spare parts management and repair contract by Telefónica O<sub>2</sub> Ireland, which is part of the Telefónica group.

The managed services contract with Telmar covers multiple service level agreements including in-country warehousing, logistics services and on-site delivery of network replacement units. Telmar will also provide multi-vendor hardware repair, 24/7 call desk support, end-to-end vendor warranty management services and rollout and de-installation equipment asset management services to Telefónica O<sub>2</sub> Ireland.

“After providing our high-quality managed services to Telefónica O<sub>2</sub> Germany, we are very pleased that Telefónica O<sub>2</sub> Ireland has chosen Telmar as their preferred provider of spare parts management, multi-vendor repair and other managed service programs,” said Steven Pickett, President and CEO of Telmar Network Technology. “By choosing Telmar, Telefónica O<sub>2</sub> Ireland can focus on providing the highest-quality services to their customers and growing their markets.”

### **About Telefónica O<sub>2</sub> Ireland**

Telefónica O<sub>2</sub> Ireland Limited belongs to Telefónica Europe and is part of the Spanish telecommunications group Telefónica S.A. The Company offers its customers postpaid and prepaid mobile telecom products, innovative mobile data and internet services. Telefónica Europe has more than 45 million mobile and fixed network customers in Great Britain, Ireland, the Czech Republic, Slovakia and Germany.

### **About Telmar Network Technology**

Telmar Network Technology delivers compelling solutions that extend the life of critical network equipment, generate significant cost savings and increase operational efficiencies for OEMs, Enterprise and Network Service Providers around the globe. For over 40 years, Telmar has provided multi-vendor repair to OEM specifications, spare parts management, legacy product development and enhancements, as well as certified pre-owned products for the communications market. An active member of QuEST Forum, Telmar is committed to upholding the highest standards of quality in its products and services. Headquartered in Plano, Texas, Telmar operates facilities throughout the United States and Canada, and in Brazil, Argentina, the United Kingdom, the Netherlands, Belgium, India, and Malaysia. Its facilities in North America, India, and Malaysia have achieved TL 9000 certification.
